Key Assumption – Customs & Clearance Cost

Under the Air CIF terms, Dhalay International's responsibility ends at Kuwait International Airport. All customs clearance, duties, taxes, and local transportation from that point onward are our responsibility. **A customs and clearance cost of approximately 20% has been assumed** in the landed cost figures above and in all margin calculations used to reach these prices. This rate has not yet been confirmed with Kuwait Customs and should be verified before final financial commitment, as actual duty rates may vary by item classification.
